

The computer-, telephone- and video aided Recruitment Expert System KMC-RES®. A new innovative concept enabling effective recruitment of qualified staff.

Since 1985, K.M.C. has been very successful in assisting companies in finding highly qualified and motivated staff, in Belgium as well as abroad.

For this purpose, K.M.C. has developed a unique computer-, phone- and video aided Recruitment Expert System, called KMC-RES®, with which each vacancy, regardless of its degree of difficulty, is filled worldwide in a fast and effective way.

The applicant-friendly computer and video aided KMC-RES® differs in every aspect from the conventional search and selection procedures, thus motivating outstanding candidates to apply for the job, even if they have not considered making a career change. The potential candidate also appreciates the fact that he can do a personal evaluation of his functional aptitude during a real-life work situation assessment.

Given the ever increasing demand of results oriented computer-, phone- and video aided KMC-RES® services, assisting companies in an effective way in filling their vacancies with highly qualified and motivated candidates, K.M.C. wishes to expand its Recruitment Partners Team.
